ABOUT ME

Motivated Junior Software Engineer and MSc student in Cyber Security & Machine Learning (Ovidius University '27), with hands-on practical experience in .NET backend architecture and applied cybersecurity. Skilled in C#, Python, and SQL, with a strong focus on building reliable, secure software solutions. Passionate about clean coding principles, integrating security into the development lifecycle, and continuous learning.

EXPERIENCE

Cybersecurity Intern
Universitatea OVIDIUS din Constanta | Dec 2025 – Present
The "PracTIC@UOC" project is an EU-funded initiative designed to bridge academic studies with real-world IT industry requirements. Selected for this competitive internship to gain hands-on experience in applied cybersecurity (Red Team, Blue Team, DevSecOps).

- **Key Achievements:** Executed penetration tests on simulated enterprise environments (network, AD, web apps) and designed defensive architectures by integrating logs (Sysmon, Suricata) into a centralized Wazuh SIEM.
- **Core Responsibilities:** Conduct threat hunting, analyze system logs, and perform ethical hacking using tools like Nmap, Burp Suite, and Hashcat. Implement automated security checks in GitLab CI/CD pipelines (SAST/DAST).

Backend .NET Practical Placement
Cornerstone Technologies International | Nov 2023 – Jun 2024
Cornerstone Technologies International is a software development and IT services company focused on delivering innovative technological solutions.

- **Key Achievements:** Developed and integrated RESTful APIs for user authentication and core business logic for a complex e-commerce platform. Designed and optimized the database architecture from scratch using Entity Framework Core.
- **Core Responsibilities:** Implemented the Data Access Layer (DAL), wrote clean, scalable C# code following OOP principles, and managed version control via Git/GitHub while participating in technical code reviews.

SKILLS	Technical Skills • Programming & Web: C#, Python, Java, SQL, JavaScript, HTML, CSS, Bootstrap • Frameworks & Tools: .NET, ASP.NET Core, Entity Framework, Visual Studio, Git/GitHub • Databases: MySQL, SQL Server • Cybersecurity & Cloud: Penetration Testing, SIEM (Wazuh), DevSecOps (CI/CD), Incident Response, Nmap, Burp Suite, Microsoft Azure • Core Competencies: RESTful APIs, Object-Oriented Programming (OOP), Data Structures, Algorithms, Secure Coding, Debugging	
	Soft Skills • Problem-Solving & Critical Thinking Team Collaboration & Communication • Adaptability & Continuous Learning Time Management & Organization • Attention to Detail	

CERTIFICATIONS	• Microsoft Certified: Azure Fundamentals – Microsoft (Jul 2023) • 100 Days of Code: Complete Python Pro Bootcamp – Udemy (Nov 2025)
PROJECTS	Topic Trips Guide A web application for planning and exploring personalized tourist routes, focusing on significant historical and culinary locations in Europe. • Tech Stack: C#, ASP.NET Core, HTML, CSS, JavaScript, Bootstrap, MySQL/SQL Server. • Key Features: Engineered custom user routing based on predefined itineraries or historical figures' lives. Integrated a dynamic mini-wiki component providing detailed historical context and image retrieval for each location. Face Recognition App A Python-based facial recognition system implementing multiple algorithms for identifying and comparing human faces. • Tech Stack: Python, PyQt6, OpenCV, NumPy. • Key Features: Successfully implemented, tested, and visualized advanced classification algorithms including Nearest Neighbor (NN), k-NN, Eigenfaces, Class Representatives, and Lanczos using the AT&T Face Database. Computational Geometry Visualizer A graphical application that allows users to seamlessly visualize and interact with Bezier and B-Spline curves. • Tech Stack: Python, PyQt5, Matplotlib. • Key Features: Developed real-time rendering and interactive manipulation of complex geometric curves for academic demonstration purposes.
EDUCATION	Master's Degree in Cyber Security and Machine Learning <i>Ovidius University, Constanta Oct 2025 – Jul 2027</i> Bachelor's Degree in Computer Science <i>Ovidius University, Constanta Oct 2022 – Jul 2025</i>
LANGUAGES	Romanian – Native English – Professional Working Proficiency
